Methodist Churches Here Keep Same Pastors; District Changes

The 56th Session of the Northwest Texas Conference, of the Methodist Church closed last Friday in Lubbock, with the reading of the appointments by Bishop Eugene Slater.

One item of business that affected this area was the change of District boundaries. For a number of years there have been ine districts, but this year the Stamford District was dissolved, and half of the Churches will become a part of the Abilene District, and the other half will become a

part of Childress District. Hamlin will go back into the Abilene District. The District Superintendent of the Abilene District is Dr. Tilden Armstrong. The Rev. S. Duane Bruce, a former pastor at First Church Hamlin, was appointed as superintendent of the Childress District.

Some of the other appointments of local pastors and former pastors Rev. Tommy Ewing, appointed to serve at Faith-McCaulley churches for the second year; Rev. Royce Womack, back to First Church for the third year; Rev. Daris Egger returned to Colorado City for the sixth year; Rev. Ed Robb to St. Paul in Midland for the fourth year; Rev. James Boswell to Fairmont in Abilene for the third year; Rev. Fred Brown to Turkey for the third year; and Rev. John Ferguson to Halfway for the second year. Dr. Hubert Bratcher, formerly of the Stamford District, was appointed to serve as District Superintendent of the Big Spring District.

There is a possibility that the Annual Conference will meet in Dallas next year. Southern Methodist University has invited all of the Methodist Conferences in Texas to help them observe their 50th Anniversary. The invitation by S. M. U. will go before all the Conferences, and if all favor this, they will all meet at the same time on the Campus. If the group does not meet in Dallas, the Northwest Conference will meet on the McMurry Campus.

Faith Methodist Church was represented at Conference by the pastor, Rev. Tommy Ewing and Mrs. Johnnie McCrary. First Methodist Church was represented by the pastor, Rev. Royce Womack, Mr. and Mrs. L. H. McBride, Mr. and Mrs. A. B. Carlton, and Mrs. A. A. Hackley.

Frontier Stamp Center Sels Formal Opening

The Frontier Stamp Gift Center will have their formal opening Thursday, Friday and Saturday in the new location at 230 West Lake Drive.

Located in the west part of the building with Mac's Super Market, the gift center features attractive displays of desirable gift items. Items not in stock may be specially ordered from the colorful Frontier Stamp catalog, according to the manager, Linda Corley.

A page ad in the second section of this issue advertises the free stamps to be given away at 5 p. m. Saturday. Winners need not be present at the drawing.

Other businesses that give Frontier Stamps are participating in the formal opening by giving fifty free stamps with a small purchase and coupons from the advertisement. These are Mac's Super Market, Ted's Shamrock, Bishop's Flowers, Warner's Conoco, Reynolds's Drug, Don's Gulf and Hamlin Radio and TV.

The gift center is open from 10 to 12 a. m. and 1 to 5 p. m. and closed on Monday.

Mrs. Corley is the wife of policeman John Corley. They have two children, Mike, 6, and Rachelle, 3. They are members of Central Ave. Baptist Church.

The assistant manager is Mrs. Garland Preston.

Grand Opening Set by Mac's

The grand opening celebration of Mac's Super Market in the new location on West Lake Drive will be held Thursday, Friday, and Saturday, according to the store manager, Luther Haught.

In a special section in this issue is information concerning the 1000 prizes to be given during the grand opening. Also double stamps are being given during the three days. Free ice cream, candy, balloons, comic books and cotton candy are just a few of the features of the opening. Hot dogs with cold drinks will be served for five cents Friday and Saturday.

Owned by Mac Steele of Spur, the business was purchased last September from Safeway Stores and was operated in that location until the last week in April when the 9,600 square foot building was completed, which also houses the Frontier Stamp Redemption Center.

The store features aisles that are 6 1-2 feet wide to offer greater convenience in shopping. Also there is a complete line of fancy and staple groceries, latest hit records, sewing center, drugs, and notions.

Three check-out counters, automatic stamp dispensers and in and out doors that open automatically are designed for the customers convenience.

Haught has lived in or near Hamlin for a number of years. He is the son of Mrs. M. L. Haught and the late Mr. Haught. He was born in Iradell and came to Hitson in 1926. They lived there until 1934 when they moved to Boyd Chapel. He attended school at Hitson, Boyd Chapel and McCaulley.

He went in the Navy in 1942 and served three years. After his discharge in 1945 he went to work for Bud Terrell in Terrell Foods on South

Central. He has had 20 years of grocery store experience.

He went to work for Mac's Store in Spur in 1957. After two years he moved to Aspermont and managed that store six years before coming to Hamlin in March of this year.

He was married to the former Martha O'Neal in Hamlin in 1957. They have two daughters, Denise, 6, and Stephanie, 3. They are members of the First Baptist Church in Aspermont where Mrs. Haught has been serving as superintendent of the young adult Sunday School department.

Manager Haught, a longtime member of the Hamlin Masonic Lodge, has been a member at Aspermont for about a year and a half. He also served on the Aspermont Housing Authority Board. He is now a member of the Hamlin Rotary Club.

The market manager, Don Bradshaw, is formerly of Spur. He and his wife, Nancy, have three children. He is assisted by George L. Johnson of Stamford as butcher.

The assistant manager is Jack Waldrop who was formerly with Safeway Stores. He was reared in the McCaulley area and is married to the former Cecelia Reese of Rotan. They have one girl, Monique.

Sonny King, formerly of Aspermont, is the produce manager. He is a graduate of Aspermont High School and attended West Texas State University, Canyon, for two years.

Curtis Griffin, stocking clerk, is formerly of Anson where he worked with Wyatt's Food Store. He and his wife Karen, have two children.

Mrs. Roy Thompson and Mrs. Raymond Nichols, both former Safeway employees, checkers.

Other part-time employees include Jimmy Haught and Mary Lois Patterson.

Commissioners to Sit As Board of Equalization

Jones County commissioners will sit as a board of equalization on June 23 and 24 and will hear pleas of some 70 to 75 farmers that tax valuations placed on their lands be reduced.

Involved are more than 100 tracts of land, covering about 83 reconditions. In some instances owners have asked that values be reduced as much as one-half.

Jones County is operating this year for the first time with a schedule as set up by a tax valuation survey company, McMorries and Company of Amarillo. The survey was completed last summer - just in time for this year. The company used aerial maps of each farm and also used land

classes as set up by the Soil Conservation Service. The best land in the county was valued at \$150 an acre and all lower grades were sealed downward from this figure.

The county assesses at 20 per cent of the set value, or, in the case of the best land, at \$30 per acre. Tax rate is 70 cents per \$100 valuation. The commissioners will hear appeals on oil and gas valuations on June 15. Pritchett and Abbott are valuation engineers for this phase of taxation.

It was brought out Monday at a meeting of the court that Jones County has been losing oil and gas valuations at the rate of about \$500,000 a year. However, last year, this value dropped \$1,600,000, costing the county some \$22,000 in revenue.

The commissioners rejected a plea of Sheriff Dave Reeves for an increase in salary. One

of the commissioners commented that if any raises were given, they would have to be for all county employees - elected and hired. Pay of the sheriff is \$500 a month - the same as most of the other major office holders.

In other action, the court authorized advertising for bids for a new heavy duty loader for use in precinct 2. Commissioner Tom Boyd explained that his precinct does not own a dozer and that he is not able to load gravel with his loader unless it is stacked. He is renting dozer service at the present time.

Under the plan to be followed, the new equipment would be paid for over a period of five years. Cost likely will be about \$20,000.

The court also approved \$1250 as payment to Texas Cowboy Reunion, Inc. for moving quarter horse barns from near the right of way for the new farm road which will run from Highway 277 to near Tuxedo.

David Drummond Signs With Hardin-Simmons Track Squad

David Drummond, 17, track and basketball letterman for Hamlin High School, has signed a letter of intent to accept a track scholarship at Hardin-Simmons University.

Drummond's best time for the mile was 4:28, logged when he was a junior. He didn't compete as a senior, due to a leg injury suffered while pole vaulting.

FAIRVIEW NEWS

by Mrs. Elmer Joiner
Another Monday morning, another rain, that seems to be the news most of the time recently. This time only one half inch fell in the morning hours, last night, but since the ground was barely dry enough to plant cotton anyway, it will delay planting a few days again. Last week it rained one half inch early in the morning and by two o'clock the combines were running.

All of the fields had wheat waving in them last Monday, but very little is left this morning, for combines have really been busy the past week, the sunshine ripened most of it to where it could be gathered.

It was with much pleasure that we saw the new correspondent, Mrs. R. M. Babb, from Sylvester, in the paper last week. Makes you feel much better to see other news items from other places, you don't feel so alone in your "nostiness", so welcome to the ranks, Mrs. Babb.

Little Keanan Wright spent several days last week in the hospital, with a case of tonsillitis.

A phone call to the George Wainwrights, from their son, Jimmy, who is taking his basic training at Lackland Air Base, San Antonio, told them that he will be sent next week to Shepard Air Force Base, Wichita Falls, for further training. Since Wichita Falls is near home, all concerned are very happy, and Jimmy reports that he does like his work.

Mrs. W. W. Valliant, Anson, visited with Mrs. E. A. Henry Sunday afternoon.

Mrs. Henry went to see Mrs. Fred Rosenbaum, last Tuesday afternoon.

Mr. and Mrs. Elmer Smith, Carlsbad, New Mexico, spent last Tuesday and Tuesday night, visiting in Hamlin with her sisters, Mrs. Woodrow Goodwin and Mrs. Elmer Joiner. They were enroute home from a vacation spent in Treece, Kansas, with his mother, and at Amarillo visiting a daughter Mr. and Mrs. Pete Hatch and boys.

Funeral services will be held this morning for Greenie P. Harber, of Abilene. Mr. Harber is the husband of the former Pauline Bristow, and lived in our community before she married.

Mrs. Kenneth Leverett, Kimmy and Kristy, were absent Sunday from church services, they were in Abilene to attend Baccalaureate services, Sunday morning, for the graduating seniors, the class of which Mrs. Leverett's brother, Larry Tanner, is a member.

Rev. Leverett being batching Sunday, Mr. and Mrs. Fred Rosenbaum invited him for lunch.

We bragged about our attendance last week at services Sunday, but certainly don't have any bragging to do this week, for both times the crowd was about as small as it could get.

Mr. Fred Rosenbaum had a calf bitten by a rattlesnake last week, having to have the vet out for treatment, since it was bitten on the nose, swelling its head so much that it couldn't nurse. Baby calves are almost worth their weight in gold these days.

Mr. and Mrs. J. E. Best, of Borger, ate lunch with his sister, Mr. and Mrs. Flavil Holmes, last Friday.

Mrs. J. E. McCoy and Kay, were visitors of the Elmer Joiners, Sunday afternoon. Kay will go back to Lubbock Tuesday, where she will enter summer school, Wednesday at Texas Tech, now being a sophomore.

Rev. and Mrs. Leverett spent part of last week at Kingsland, with his parents, who have recently moved from Odessa to that place. They reported getting in some fishing.

Mr. and Mrs. J. S. Scott, Albany, visited Sunday with their cousins, the Drake family. Mr. and Mrs. Scott were in the hall that raked that vicinity last week, losing their cotton crop and the roof on their home. They stated that scarcely a house in Albany failed to have some damage.

The Drake family, Connie, Della and Maude, asked me to take this way of thanking all of those who were so nice to them in the recent illness of Mr. Drake, and the eye surgery of Miss Maude. Miss Maude did not regain her sight, at this time, in the eye

which was operated, but can see enough from the sight that has come back in the other one, to carry on, but she says she cannot send out any thank you cards, but does appreciate anything that was done for them.

Mr. and Mrs. W. C. Eoff went to Temple, Sunday, where Mr. Eoff will enter the clinic, for a checkup.

Revival services for the Fairview church will be held this year one month early, beginning Sunday, July 18 and running through the 25. The visiting evangelist will be Rev. Bill Irwin, of Central Avenue Church, in Hamlin, the song service led by his home church leader, Ronnie Lee. We urge all of our friends to be looking forward to coming and visiting with us in this series of revival services.

Spencer Ford killed a rattlesnake in the road, near the Rosenbaum home last week. Lets hope that it was the one that bit their calf.

Mr. and Mrs. Woodrow Goodwin went to Spur Sunday, to visit his sister, Mr. and Mrs. Archie Hogan. Mrs. Hogan scheduled for surgery, Tuesday morning, but last week she fell from a chair painfully injuring herself, no broken bones, but will have to postpone surgery for a few days, or until she recuperates from the pain of the fall.

State Draft Quota Set for June—695

AUSTIN. — The state draft quota for June is 695, compared to 639 in May. Colonel Morris S. Schwartz, state Selective Service director, said Tuesday.

The June call of 695 men is the biggest since January 1964, when 812 Texans were directed to report for military service.

The June call is the Texas share of a national quota for 17,000 men, all for the Army. The state Selective Service director also announced that state draft boards will forward 3,338 males for Army mental-physical examinations in May, 535 of whom will be 18-year-olds.

Dear editor:

Six Flags Now Open Seven Days A Week

Six Flags Over Texas is now open seven days a week throughout the summer months. Operating hours for the popular tourist attraction, located midway between Dallas and Fort Worth, will be from 10 a. m. to 10 p. m.

The 1965 season at Six Flags, which began April 16, has already furnished Park officials with some healthy signs of another banner year according to attendance reports and license plate surveys taken over the past five weeks.

Despite the rainy weather that has plagued the area during this time, the worst in Six Flags' four year history, attendance is still running higher, with 175,077 visitors to date as compared to 169,770 last year.

The percentage of out-of-state visitors is up 33 percent over a year ago. Kansas has now taken over the number three spot right behind Oklahoma and Louisiana in percentage of tourists visiting Six Flags. Arkansas is fourth, followed by California, Illinois, New Mexico, Missouri, Ohio, Michigan and Colorado.

"The large increase of visitors, especially from the Midwestern and Western states, is a solid indicator of Six Flags' continued growth and recognition as one of the nation's top tourist attractions," said Angus G. Wynne, Jr., president of Great Southwest Corporation, owner and operators of the 115-acre theme Park.

Six Flags was recently ranked as the number one tourist

While I don't understand boxing, what I mean is the way I get it is, if Clay had hit Liston hard enough the fight fans would have been satisfied, whether the fight lasted one minute or thirty, but a gentle tap about like you'd use to get a cat off the dining table if you allow cats in the house makes everyone unhappy and feeling cheated, still the thing about the whole affair is the clamor for an investigation.

It's a fact, fight fans are demanding that the fight be investigated, and several Washington officials have risen to the call.

What they say is, here Liston and Clay have fought twice, for a total of about four minutes, and the fans have paid out over eight millions dollars to see it, either firsthand or on closed-circuit television, and they are tired of getting cheated and Congress ought to do something about it.

This is what I don't understand. If the fans are convinced the fights are fakes, why trouble Congress to pass a law to keep them from wasting their money? Why don't they just stay away? Why don't they allow nature to take its course? When a football team loses nine games in a row, how many fans show up for

attraction in the State of Texas with more than 5,000,000 visitors since opening in 1961. Anticipated attendance for the 1965 season is in excess of 1.8 million.

Put on the Full

Armour

"Wherefore take unto you the whole armour of God"...

In Paul's letter to the Ephesians, he makes a comparison of the children of God and warriors. He says that our lives should be girt about with truth, and having on the breastplate of righteousness. He makes many more comparisons that exhort us to a proper life. Another thing that Paul urges is that we gather together and worship the Lord. No part of our armour is greater than regular church attendance. Much strength for the week is derived from worshiping with others.

Complete your suit of armour... attend church this week.

This Church is God's appointed agency in this world for spreading the knowledge of His love for men and of His demand for men to respond to that love by loving His neighbor. Without this grounding in the love of God, no government or society of men will long prosper and the individual who is not so grounded will live a life of selfishness and sin. Therefore, even from a selfish point of view, each should support this Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in this Church because it is the best way to live and to fulfill his life, health and destiny, the best which man can ever hope to have as a child of God.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN. — Political and Legislative history has been written in the 59th lawmaking session just ended.

Highlights:

A \$3,600,000,000 budget providing for expanded services in every area of state government and affecting every citizen.

Record improvements in higher education, including creation of the powerful coordinating board for Texas colleges and universities.

A \$101,000,000 salary raise for school teachers, \$70,000,000 of which will be paid by the state.

A sweeping overhaul in the entire system of state mental hospital and tuberculosis control administration.

Major public welfare expansions, including a proposed constitutional amendment to permit full state participation in the new federal medical care program for the aged, blind and disabled. A provision of the amendment would qualify non-citizens who have lived in the state for 25 years or more.

Overhaul and extension of the state's program for water control and development.

Congressional and legislative redistricting which will change the makeup and complexion of future legislatures shifting the balance of power from rural to urban areas.

If voters approve proposed constitutional amendments, the Senate will be enlarged from 31 to 39 members and terms of the governor and other statewide-elected officials now limited to two years, as well as those of state representatives, will be extended to four years.

Gov. John Connally emerged as the most powerful governor in modern Texas history.

WHAT IT WILL COST — Despite its record achievements, the 59th session, handed a relatively-modest tax bill to Texas citizens.

Cigarette smokers will bear virtually the entire share of the cost. Tax was increased from eight to 11 cents a pack, the nation's highest state rate. This will produce \$70,000,000 in new money during the coming biennium.

A one-time gain of \$6,000,000 will be achieved by setting of a 15 months-from-date-of-death limitation on payment of the inheritance tax.

Teachers pay raise also will require financing at the local level. Present estimate is that the owner of a \$15,000 home will pay \$2.52 more in annual property taxes to school districts.

BILLS PASSED — Among the new laws passed during the final days of the regular session of the 59th Legislature were:

Continuation of the Bay Study Committee, which is concentrating on the problems of water pollution;

Regulation of the taking and processing of oysters and other shellfish for sale;

Creation of Permian State College, if higher education coordinating board approves at Odessa;

Asking members of Congress from Texas to vote for keeping the section of the Taft-Hartley Law which permits Texas to outlaw closed union shops;

Prohibition of the use of .22 caliber rimfire ammunition to hunt deer, elk, antelope and wild sheep in counties not regulated by the Parks and Wildlife Commission;

Prevention of city councils from making residence within the city limits a condition of employment;

Legalization of traffic cameras on pinball machines;

Requirement for testing of all babies born in Texas for phenylketonuria (PKU), in an inborn error in system which, if uncorrected, causes brain damage;

Parents liability up to \$5,000 for malicious and wanton damage by their children.

Everett was recently awarded associate membership in Sigma Xi national honor society devoted to the promotion of research in science. He currently holds membership in the American Association for the Advancement of Science and the American Chemical Society. He is the co-author of several scientific publications in the field of cosmochemistry.

This summer he will teach in the chemistry department at Texas Tech and do research on a project concerning simulated materials found on the surface of the planet Mars.

In September Everett will begin work towards a doctorate of Philosophy in Chemistry at Arizona State University, Tempe, Arizona where he has been granted a \$2,500 scholarship.

Mr. and Mrs. Gibson will return to Lubbock Friday and returned Sunday. Attorney General Waggoner Carr was speaker for the commencement exercises held in Lubbock Municipal Coliseum.

Mrs. W. L. Teague, Former Resident, Dies in California

Mrs. W. L. (Florence) Teague, 78, died in a hospital in San Leandro, Calif., May 9. She had been in a convalescent home for two years and was acutely ill two months prior to her death.

The Teague family moved to Hamlin in 1939 from Stamford where they had lived for 20 years. They lived here three years before moving to Flat Top where the terminal for the H & N W RR Co. was located. Mrs. Teague's husband, the late Mr. W. L. Teague was railroad engineer until his death in 1944. Mrs. Teague operated the boarding and rooming house for the railroad company and the Hamlin Sand and Gravel Co.

After Mr. Teague's death, Mrs. Teague made her home in Hamlin with a daughter, Zudy, who was the wife of the late Lamar C. Hayes of Hamlin. She then moved in 1950 to California to live with another daughter, Faye Dicus (formerly Faye Thorp).

Services were held at Oakland, Calif., and interment was at the Chapel of the Chimes, Hayward, Calif.

Survivors include the two daughters, Mrs. Dicus, and Mrs. Zudy Brier, both of San Leandro, Calif.; two sisters, Lily Helton of Watsonville, Calif. and Mabel Eagleton of San Rafael, Calif.; and three grandchildren.

Baltimore has 270 piers on the 40 miles of waterfront in its harbor.

The name arsenic comes from the Greek word for "bold", from its action on other metals.

As It Looks From Here . . .

Omar Burleson, M. C., 17th District, Texas
WASHINGTON, D. C. — Many People have expressed deep concern regarding measures introduced in the Congress to regulate and control the interstate shipment of firearms. The measure best known is that now pending in the United States Senate and on which Committee hearings are now in progress. The author of the bill is Senator Dodd of Connecticut.

The measure is supported by the Attorney General of the United States, as spokesman for the Administration. Generally, the proposed is supported by news media, and particularly those of the large cities.

The main emphasis on greater control of firearms was inspired by the assassination of President Kennedy. The weapon happened to be of foreign make, ordered by mail. Amendment II to the Constitution of the United States says, "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."

Both real and fancied problems have spurred many Members of Congress to propose measures regulating firearms in interstate commerce, with varying degrees of restriction. Since 1963, about 40 bills have been introduced in the Congress to amend the Federal Firearms Act, to control their movement in commerce. At present there are 15 bills which seek to accomplish this purpose. All have as their goal public safety and security. Some, however, re-

legate to a minor position the right of the responsible citizen to own and use firearms for the lawful purpose of defense, marksmanship training and sport.

While attempting to prohibit sales of firearms to juveniles, criminals and persons who would be in violation of State Law or Local Ordinance, there is danger of the infringement on the Constitutional provision for the individual to leg-

gitimately own and bear firearms.

The record of crime involving firearms is overwhelming. Almost 90 per cent of homicides and robberies involve firearms. This is, of course, impressive and gives forceful argument to those who would be more strict in their regulation.

In the District of Columbia, a waiting period of three days is required after application is filed for the purchase of any concealable firearm. A person not wanting to wait this period

may cross the line to nearby Maryland and immediately buy any type of gun.

By reason of crime in the District of Columbia, this, too, gives influence to the proposition of the control of firearms purchases beyond the Constitutional limits.

Most of us feel that crime may be better controlled in the Nation's Capitol and elsewhere if the Courts were not so lenient in dealing with criminals. As J. Edgar Hoover has said, in effect, "the bleeding hearts," meaning those who

would have the police carry of-

fenders around on a feather pillow, have caused the Courts to apply such liberal decisions that criminals are walking the streets of Washington, D. C. instead of being isolated from society.

A bill introduced by Congressman Casey, representing a part of Houston, sets a penalty for using or carrying a firearm which has been transported in interstate commerce during the commission of a crime of violence. This measure provides a mandatory

sentence of 25 years in the penitentiary for such an act.

This approach might not only help in the prevention of serious crimes involving guns, but might also modify some extreme views on the subject.

This proposal could be an amendment to the provisions of the National Firearms Act, which is already in effect. It could also include items of explosive ordnance defined as "destructive devices." This would mean such items as

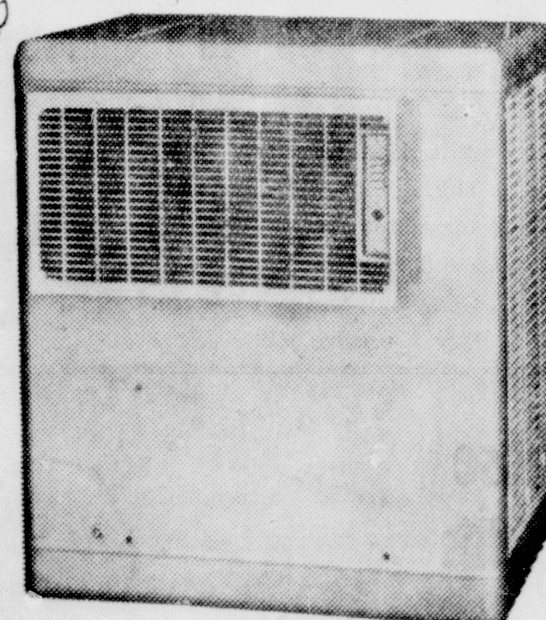

hand grenades, mines, bazooka shells and the like.

The National Firearms Act was passed in the 1930's, during the gangster era, but applied mainly to traffic in machine guns.

This approach would seem more desirable and effective and at the same time, guarantee the individual's Constitutional right as provided in Amendment II to the Constitution.

The future belongs to the fit

In space or surgery, farming or finance, nursing or news reporting, teaching or television, the future belongs to the fit. The future belongs to those vigorous enough to live it . . . and shape it! Medical authorities put it this way: "It is a tragic waste to highly educate the minds of our children and neglect the physical conditioning that can help them participate in the future to the full extent of their abilities."

Warnings like this have sparked action. The President's Council on Physical Fitness has developed programs that any

school can initiate, regardless of limitations in facilities or budget. We're making progress. Yet even today, less than half our school children get the daily minimum of vigorous exercise they need for adequate physical development.

How about your schools? Are they providing for physical fitness as part of the sound education your children need to carve out their share of the future? You parents can help see that they do. Write: The President's Council on Physical Fitness, Washington, D. C., for information.

Nosey Neighbor...

by Barbara Craig

David Casey was really irritated on his first commercial air lines flight this past week. He and his father-in-law, Harry London of the Heidenheimer's store in Winters, were flying to Dallas last Monday for the ladies-ready-to-wear market when about 15 minutes out of Dallas one of the engines went out. One fortunate thing for David was that he did not know about the defunct engine until they were already on the runway and he noticed the fire trucks and ambulance there to meet them.

To add to the excitement of the trip, the men were returning Thursday evening and were caught in the storm about 15 minutes out of Abilene.

He said that although he liked the commercial flying, he may chose to be a ground traveler.

Mr. and Mrs. Johnie Agnew were in Midland last week for the opening of a play by the Midland Community Theatre in which their daughter, Janice, had a part.

Janice, the wife of S. T. Constantine, an independent oil operator, played the part of Amy Underhill a 50 year old woman on tranquilizers at

a convention in the play "Third Best Sport," an adult comedy, a satire on conventions.

The Theatre program describes Janice as "a wife and mother with a hobby that is a boon to every other mother in town! She's partner, in Raggedy Anne and Andy's Party Service, giver of children's birthday parties deluxe, complete with beautiful cakes (one of her specialties) and marvelous puppets (all hand-made, another of her talents). Think she's busy? 150 parties in the last year and a half. Janice is also an old time theatre worker, dedicated variety. Highlight of her career - the night Yvette White's (Sister in Damn Yankees) house caught fire about the time the overture was starting and understudy Janice took over the part, fast like!"

Janice has always been interested in drama and took part in plays in high school and at Hardin-Simmons University where she enrolled in the fall following her graduation here in 1954.

When she and her husband moved to Midland nine years ago, they both became members of Midland Community Theatre and have been very active. He works backstage and in various ways aiding in the productions. Janice played the leading role in "Pajama Game" about four years ago.

The couple has three children, Melaine, 8, John Agnew, 5, and S. T. Jr., 2 1-2.

The play opened May 27 for a two weeks run. Mr. and Mrs. Agnew were there for dress rehearsal on Wednesday and for opening night Thursday.

Sent in my notice for renewal of my driver's license last week. Was supposed to make a change in the weight if there was a difference of more than 10 lbs. I decided that since my weight gain had probably been only 9 1-2 lbs. this would be a good time to concentrate on getting the weight down and not make a change on the record. Seems that I have heard somewhere that having a goal to meet helps. I really don't think anything helps as much as cutting down on the intake which at times is hard to do.

Beta Theta Honors Mrs. Jerry Larned

Mrs. Jerry Larned was selected Girl of the Year by members of Beta Theta Chapter of Beta Sigma Phi at a sandwich supper in the home of Mrs. W. T. Johnson.

Mrs. Leldon Clifton presented the honoree with a silver cup and silver charm in recognition of her selection as Girl of the Year as the one who had contributed most during the year.

Mrs. Larned served during the past year as treasurer and chairman of ways and means committee. She was also chairman of the Talent Show held in May.

She was a first grade teacher this past year and she and her husband were active members of the First Methodist Church, singing in the choir and teaching a Sunday School Class.

They moved recently to Alpine where he will be coaching at Sul Ross State College. Also honored at the May 14 meeting were Mrs. D. C. Andrews and Mrs. Sam Walker, who are also moving from Hamlin. They were presented

County Agent Offers Suggestions For Chigger Control

Recent rains over the county are expected to increase the possibility of a heavy chigger infestation in home lawns, according to word this week from Jones County Agent, Kirby Clayton.

The agent had these suggestions to offer for local residents as a means of protection against the pest:

First, Clayton says to use a repellent before going into a suspected chigger infested area. Deet (diethyltoluamide), Dimethyl Ththalate, dimethyl carbate and ethyl hexameciol are all effective repellents. They should be sprayed on or rubbed on the clothing, especially along sleeves holes, cuffs or waistbands.

If one goes into a chigger infested area without the aid of a repellent, chiggers are almost certain to attack causing itching and irritation to the skin. In such case, says Clayton, take a bath as soon as possible. Apply thick lather then rinse off. Do this several times. This should kill off all the attacked chiggers, but may not completely stop the itching. The fluid injected by the chiggers is what causes the irritation and this will continue for awhile after all chiggers are killed.

To get temporary relief apply a local anesthetic. The following formula has been found most helpful: 5% Benzocaine 2% Methyl Salicylate 5% Salol 19.5% water. Take the formula to your druggist for compounding and apply to the raised welts. This should give relief for an hour or two at a time. Repeat application as often as necessary.

In the third place, the agent says that lawns and flower beds should be treated with chlordane, lindane, or toxaphene. Apply 5% chlordane or 5% toxaphene dust at the rate of 1-1 1-2 per 1000 square feet of space and 1% lindane dust at the rate of 1-1 1-4 per 100 square ft. of space. The above material may be mixed in water and sprayed on the area at the rate of 3 quarts per 1000 square feet of space. For further information on Chigger Control, crop by your County Agent's Office and ask for a copy of leaflet 403 entitled "Chiggers - Hoy to Fight Them."
